## EXPERIENCE

### IEEEEXTREME 16.0 | HACKTHON

Oct 2022 | Sri Lanka

- Led a team of three students in the IEEEExtreme 16.0 hackathon, placing top 100 in Sri Lanka. Demonstrated leadership and problem-solving skills under pressure.

## PROJECTS

### TOURISM WEBSITE E-COMMERCE FRONT-END DEVELOPMENT PROJECT

ROLE: LEADER

Mar 2023

Responsibilities:

- Led a team of 4 students to create a tourism website.
- Create the e-commerce part of our website.
- Managed project timelines, communicated with lectures, and ensured project objectives were met

Overview of my part:

- Implemented e-commerce functionality, including a shopping cart, checkout process, and invoice system.

Achievements:

- Relevant skills and experiences include front-end development, e-commerce development, project management, and collaboration.
- Leading a team to create a functional and effective website.

### THEATRE SEAT BOOKING SYSTEM

INDIVIDUAL COURSEWORK FOR SD II MODULE

Mar 2023

- As part of my coursework, I developed a theatre booking system using Java and object-oriented programming concepts. The system allows users to view available seats, book seats, and cancel seats.
- The project allowed me to further develop my skills in Java programming and object-oriented programming.
